

Advent Small Group Discussion — From Apathy to Love

1. Recognizing Apathy in Our Lives

The sermon described apathy as a lack of feeling or action, often caused by being either naïve or numb.

Where do you notice apathy showing up in your own life right now, and what do you think has contributed to it?

2. Love as Action, Not Just Feeling

The sermon challenged the idea that love is mainly a feeling, describing it instead as something we do.

Who is someone God may be calling you to love through action rather than emotion, and what could that action look like?

3. Remembering Our Rescue

We were reminded that none of us earned our salvation; God loved us while we were undeserving.

How does remembering your own rescue by Jesus change the way you view people who are hard to love or help?

4. Seeing the Value of Every Person

The sermon emphasized that every person has immeasurable value because they are made in God's image.

Who is someone you tend to overlook or judge, and how might seeing their God-given value change your response to them?

5. Living with Eternal Perspective

We were reminded that possessions and achievements fade, but people last into eternity.

How might your priorities or use of time change if you truly believed that people are the most lasting investment you can make?

6. Moving from Apathy to Love This Week

The sermon named practical ways love moves us toward people rather than away from them.

What is one concrete step you can take this week to move from apathy to love toward someone who is vulnerable or in need?
